

## **IDEATION PHASE PROBLEM STATEMENT**

Date	19 September 2022
Team ID	PNT2022TMID51806
Project Name	Project – IoT Based Smart Crop Protection System for Agriculture
Maximum Marks	2 Marks

### **CUSTOMER PROBLEM STATEMENT:**

I am	a farmer
I'm trying	to yield more crops by using sensors
But	lack of internet facility
Because	there is no continuous internet connection in rural areas
Which makes me feel	disappointed
